

Sub-part 7601 – Traffic Engineering Division

Chapter 00200 Fiscal and Maintenance Responsibilities for Traffic Signals

Purpose

- 100 To provide consistency in coordinating with other governmental agencies and private entities the delineation of financial participation and maintenance for traffic signals. This rule covers signal equipment, the installation and maintenance thereof, when one or more of the streets controlled by the signal is on the State Highway System. Such participation by the Department is contingent upon availability of funds for these purposes. Guidelines set forth in the current edition of the Manual on Uniform Traffic Control Devices (MUTCD), and Mississippi Code, Article 7, Annotated sections 63-3-301 through 63-3-325 as amended.
- 101 To provide consistency in coordinating with other governmental agencies and private entities the delineation of financial participation and maintenance for traffic signals. This policy covers signal equipment, the installation and maintenance thereof, when one or more of the streets controlled by the signal is on the State Highway System. Such participation by the Department is contingent upon availability of funds for these purposes. Guidelines set forth in the current edition of the Manual on Uniform Traffic Control Devices (MUTCD), and Mississippi Code, Annotated sections 63-3-301 through 63-3-325 as amended.

Procedure

- 200 For the purpose of the rule, traffic signals are classified as follows:
1. Traffic control signals (Stop – and – Go)
 2. Special traffic signals:
 - a. School speed limit sign beacons
 - b. Other flashing beacons
 - c. Lane-use signals
 - d. Traffic signals at movable bridges
 - e. Emergency traffic signals
 3. Railroad flashing light signals and gates
- 201 Definitions
1. Traffic Signals - See current edition of Manual on Uniform Traffic Control Devices.
 2. Equipment - Equipment includes the controller and accessories thereto, cabinet, detectors, and signal heads.
 3. Installation - Installation involves the erection of the equipment, including: poles, cables, brackets, necessary signs, electrical work, labor, equipment rental, and other necessary incidental materials.

4. Maintenance - Routine maintenance includes lamp and fuse replacement, cleaning signal heads, and minor preventative maintenance items. Major maintenance includes repairs (other than routine maintenance) of equipment as defined above.

Traffic Control Signals (Stop – and Go)

300 Normal Installations

1. A normal traffic control signal installation includes installations other than those covered in Sections 301 and 302 below.
2. An approved traffic control signal required at an access to a private business will be the fiscal responsibility of the business for all costs involving design, equipment, installation, and electric current.
3. The following tabulation indicates the fiscal responsibility for equipment installation and maintenance of normal traffic signals within municipalities.

301 Installations Required by Construction - When an installation is required as a consequence of a Department construction project, equipment and installation will be supplied by the Department. Fiscal responsibility for maintenance in municipalities will be as indicated in section 300.

302 Network and Arterial Systems - This category includes a group of signals controlled as a system, usually including the central business district and/or major arteries in larger municipalities. The cost of equipment and installation in municipalities will be determined by population as above. The Department shall have access to systems for purposes of monitoring timing data to assure compliance with approved timings.

Special Traffic Signals

- 400 Except for school speed limit signs beacons and traffic signals at movable bridges, the fiscal responsibility for special traffic signals will be indicated in the table of section 300.
1. School Speed Limit Beacons - See S.O.P. No. TED-04-02-00-00
 2. Traffic Signals at Movable Bridges - All costs relating to traffic signals at movable bridges are the responsibility of the Department.

Railroad Flashing Light Signals and Gates

500 Railroad flashing light signals and gates are financed through agreements between the Department and the Railroad and are maintained by the Railroad.

Equipment Replacement

- 600 Replacement of equipment resulting from damage and/or unserviceable conditions will be the responsibility of the agency designated responsible for maintaining the equipment.
- 601 Sites for the Mississippi Code are available at www.state.ms.us and MUTCD information is available at mutcd.fhwa.dot.gov. Any other publications may be viewed during regular business hours at the MDOT Administration Building.
