### **MISSISSIPPI DEPARTMENT OF TRANSPORTATION Project No. DB/STP-0029-03(009)/102556-304000**

#### **Design and Construction of SR 304 / I-269 Project Marshall County, Mississippi**

The Mississippi Department of Transportation (MDOT) intends to solicit proposals for Design/Build services to complete the grading, drainage and bridges for the new SR 304 / I-269 from east of Mason Road at Station 878+00.00 to south of SR 302 at Station 1205+00.00. The Project will be approximately 6.2 miles of mainline construction with multiple grade separation bridges and one hydraulic bridge.

MDOT will provide complete signed and sealed construction plans for the project except the SR 304 / I-269 crossing of Coldwater River. The minimum length of the Coldwater River bridge shall be 4,052 ft. The Coldwater River crossing will require the use of design and construction methods that limit construction activity from the existing ground. The Design-Build Team may develop roadway and bridge plans in lieu of the MDOT supplied plans provided the alternatives are in accordance with the Request for Proposal (RFP). The Design-Build Team will be responsible for the development of erosion control plans in compliance with the current regulations for storm water runoff/erosion control for the entire project.

The Mississippi Transportation Commission (Commission) will use a two-step process to select a Proposer with which to execute a contract for this Project.

The purpose of the Request for Qualifications (RFQ) will be to solicit letters of interest and qualifications from firms interested in providing design and construction services necessary for the construction of the aforementioned work. The RFQ represents the first step in the process.

After evaluation and scoring of responsive submittals to the RFQ, the Commission intends to short-list a minimum of three (3) Responders and provide them a RFP.

The selected Proposers will be asked to submit a technical proposal, a cost proposal, and a schedule showing the number of calendar days to complete the project. Information about the format, contents and evaluation criteria for the responses to the RFP will be provided to the selected Proposers. Upon evaluation of the technical proposal, cost proposal and schedule, the Commission intends to select a Proposer for contract award and execution.

The RFQ can be downloaded from the MDOT website at [www.gomdot.com](http://www.gomdot.com) under the design build link.

Proposers are responsible for checking the website for any updates to the RFQ.

All questions related to this RFQ shall be submitted in writing and directed to:

Mr. Mark McConnell, P.E.  
Mississippi Department of Transportation  
P.O. Box 1850  
Jackson, Mississippi 39215-1850  
Or emailed to: I269@mdot.ms.gov

No telephone inquiries will be accepted.

To be considered, all responses to the RFQ must be received by **12:00 PM Central Time, Tuesday, November 20, 2012**, in the Office of the Contract Administration Engineer, B. B. House, Room 1013, Mississippi Department of Transportation Office Administration Building, 401 North West Street, Jackson, Mississippi, 39201. **Seven (7) copies of the RFQ must be provided.**

**MELINDA MCGRATH, PE, EXECUTIVE DIRECTOR  
MISSISSIPPI DEPARTMENT OF TRANSPORTATION**
