

PROPOSED IMPROVEMENTS TO SR 304 / I-269

Marshall County, Mississippi

State Project No. DB\STP-0029-03(009)/102556-304000

QUESTIONS RECEIVED AS OF April 4, 2013

38. How much time should the Design/Builder include in the schedule for the Department's review and/or approval of the RFC Plans Submittal?

Per Section 2.2.5 of the Technical Requirements, the review and/or approval period of the RFC Plan Submittal is 7 days.

39. Will the Department require a Conceptual Stage Hydraulic Analysis Submittal and, if so, how long will the Department utilize to review the information and provide comments?

A Conceptual Stage Hydraulic Analysis Submittal will not be required.

40. Will the Department determine the fate of *General Permit No. 46* to ensure that the subject project maintains permit coverage after November 3, 2014?

MDOT intends to take the necessary steps to ensure the Project maintains permit coverage after November 3, 2014.

41. Will the Department request re-authorization under a re-issued *General Permit* in November 2014, if required?

MDOT intends to request re-authorization under a re-issued *General Permit*.

42. Will the re-issued *General Permit* contain changes to turbidity limits, allowable acreage disturbed, and/or any other environmental constraints?

Changes to the above mentioned constraints are not anticipated in the re-issued *General Permit*.

43. Will the Department obtain Water Quality Certification from MDEQ for the re-issued *General Permit* in order that the subject project maintains coverage from the State?

MDOT intends to obtain Water Quality Certification from MDEQ for the re-issued *General Permit*.

44. On page 5 of 15 (page 7) of RFP instructions states: "Volume 2 – Contract Price Proposal must be received by the date and time specified in Section X, Milestone Schedule."

Question: No information is provided for the requested number of copies of Volume 2. Can you please confirm the number of copies proposer is to submit to MDOT for our Volume 2 – Contract Price Proposal?

One.

45. On page 5 of 15 (page 7) of RFP instructions states: "Volume 2 – Contract Price Proposal must be received by the date and time specified in Section X, Milestone Schedule."

Question: No information is provided whether a PDF or electronic copy of Contract Price Proposal is required. Please confirm if PDF is required and if required, how it is to be organized in the final PDF.

No PDF is required.

46. Page 5 of 15 (page 7) of RFP states, Deliver ten (10) copies of the Volume 1 Proposal, sequentially numbered on the lower right hand cover sheet from 1 to 10, and one (1) CD containing the Proposals in one (1) to five (5) PDF files.

Question: Can Proposer provide one (1) final PDF file of entire Volume 1 (including Key Individuals and Plans Appendices)? If not, please explain how Proposer is to divide the final PDF for Volume 1 and Appendices.

Yes.

47. Please clarify the intent of the phrase "responsible for the entire bridge" in the MDOT response to Q19. Does it mean that the Contractor will be liable for the design of the elements of the bridge that are NOT changed by the Contractor's proposal or just those elements of the bridge affected by the Contractor's proposal?

If the Contractor elects to change any elements of a bridge within the signed and sealed MDOT supplied plans, the Contractor shall sign and seal the entire bridge plans.

48. Would MDOT consider a delay in the submittal of the Volume I technical proposal until 4/30/13?

See posted Addendum 2.
