

**Improvements to I-55 Project
Pike and Lincoln Counties, Mississippi
Project No. DB/IM-0055-02(226)/105444303
DB/IM-0055-02(226)/105444304**

QUESTIONS RECEIVED AS OF APRIL 9, 2012

1. Would MDOT publish Best Value Calculations for the Newton Project?

The Best Value Calculations for the Newton County Project have been posted under the website for that project.

2. Are plans available for review at this time?

This is a design-build project, as such, there are no plans available at this time. Upon selection of the short list, a description of the services required together with copies of the as-built drawings will be made available with the Request for Proposals.

3. Will there be a penalty if the “Lead Engineer” does not have their Mississippi PE at this time but is commented (committed) to getting it before the Project begins.

As stated in the Request for Qualifications, MDOT does not require registration to propose on the Project, but will require registration prior to commencing work. Mississippi Code Annotated Sections 73-13-1 through 73-13-45 (1972) (as amended) govern the practice of engineering in Mississippi. Firms are encouraged to contact the Mississippi Board of Licensure for Professional Engineers and Surveyors at (601) 359-6160 to insure that individuals and firms are qualified to offer and provide services in the State of Mississippi. The Board’s web address is www.pepls.state.ms.us.
