Project No. IM-0059-01(105) 105447/30100 Pearl River I-59 Widening

MDOT intends to solicit proposals for Design/Build services to complete the widening of up to 7 existing bridge locations on I-59 in Pearl River County, Mississippi. The maximum allowable lump sum price proposal for this project will be \$10 Million.

The Mississippi Transportation Commission (Commission) will use a two-step process to select a Proposer with which to execute a contract for this Project.

The RFQ represents the first step in the process. The purpose of the Request for Qualifications (RFQ) will be to solicit letters of interest and qualifications from firms interested in providing roadway, bridge design and construction services necessary for the construction of the aforementioned work.

After evaluation and scoring of responsive submittals to the RFQ, the Commission intends to short-list three (3) Responders and provide them a Request for Proposals (RFP).

The selected Proposers will be asked to submit a technical proposal, a cost proposal, the number of bridge locations to be widened, and schedule. Information about the format, contents and evaluation criteria for the responses to the RFP will be provided to the selected Proposers. Upon evaluation of the technical proposal, cost proposal and schedule, the Commission intends to select a Proposer for contract award and execution.

The RFQ can be obtained at the MDOT website www.goMDOT.com or by faxing your request to B.B. House at (601)359-7732.

All questions related to this RFQ shall be submitted in writing and directed to:
