

Colonial Life (Cancer Insurance)

Cancer insurance is offered to you as an option by Colonial Life & Accident Insurance Company. Your policy is designed to provide coverage ONLY for cancer and cancer screening procedures, subject to any limitations in your policy. The policy does not provide coverage for basic hospital, basic medical-surgical or major medical expenses.

This policy provides benefits if the first date of diagnosis of cancer or the performance of a cancer screening test occurs: while your policy is in force; after the waiting period has been satisfied; and if the cancer or treatment is not excluded by name or specific description in the policy. Drugs received for the treatment of cancer must be approved by the United States Food and Drug Administration and treatment for cancer must be received within the United States. If the first date of diagnosis of your cancer is before the end of the waiting period, coverage for that cancer will apply only to loss commencing after this policy has been in force two years. Any cancer screening test performed before the end of the waiting period will not be covered. Cancer must be pathologically or clinically diagnosed. If cancer is not diagnosed until after you die, we will only pay benefits for the treatment of cancer performed during the 45 day period before your death.
