

# MUTCD RETROREFLECTIVITY

## Are YOU Ready?

**Description** – Has your Agency established and implemented a sign maintenance program that regularly addresses the new Manual on Uniform Traffic Control Devices (MUTCD) minimum sign reflectivity requirements? Agencies have until June 12, 2014 to implement and continue to use an assessment or management method that is designed to maintain regulatory and warning sign retroreflectivity at or above the minimum levels in Table 2A-3 of the 2009 MUTCD.

To help Mississippi cities and counties meet these requirements, we've launched a **free Retroreflectometer Loan Program** that provides Mississippi local agencies with free access to a measuring device that plays an important role in ensuring quality and accuracy when implementing a roadway sign management program. This workshop will address: (1) What is the MUTCD?; (2) What is retroreflectivity and how does it work?; (3) Sign Retroreflectivity requirements; (4) Retroreflectivity measurements; (5) Describe sign retroreflectivity; (6) Understand nighttime visibility issues; (7) Summarize new requirements; (8) Describe retroreflectivity maintenance methods; (9) Retroreflectometer Demo.

**Registration Information:** Registration fee is \$25 per person. **Lunch is on your own.** Registration can be completed online at: [www.mdot.ms.gov/ltap/](http://www.mdot.ms.gov/ltap/) or by completing the information below and submitting this form to the LTAP Team via email at [ltap@mdot.ms.gov](mailto:ltap@mdot.ms.gov). Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

**Who Should Attend?** Road/street maintenance personnel, road supervisors, road managers, public works directors, foreman, superintendents, MPOs, engineers, and crew leaders.

**Instructor:** Mr. Scott Burge, CMPDD

**Time:** 8:30 a.m. – 12:30 p.m.
