

MISSISSIPPI DEPARTMENT OF TRANSPORTATION

Inter-Departmental Memorandum

TO: Design Squads

DATE: October 29, 1993

FROM: Roadway Design Division
Irving Harris *I.H.*

SUBJECT OR PROJECT NO: Sight Distance for
Crossovers

INFORMATION COPY TO:
Files

COUNTY:

When a crossover is established using the existing county road as a control point, the crossover must meet the stopping sight distance required for 55 MPH on the existing lanes. If the stopping sight distance does not meet the required design, the county road must be relocated or the existing lanes regraded. Intermediate crossovers must meet the required sight distance or be eliminated.
