In the past, the Roadway Design Division has used a "Rule of Thumb" policy to limit Haul of Unclassified Excavation to three (3) miles. This policy has been changed, effective immediately, to NOT limit the Haul of Unclassified Excavation to any predetermined distance unless site conditions so dictate. Please see attached memo from State Construction Engineer.

If you have any questions, please advise.

MEMORANDUM

TO: Roadway Design Engineer
FROM: State Construction Engineer *[Signature]*

As per my discussions with Mr. Irvin Harris, this is to request that the maximum haul of Unclassified Excavation not be limited to three(3) miles on a project. Haul of Unclassified Excavation should not be limited to some predetermined distance unless site conditions so dictate(i.e., a heavily traveled cross road or a body of water).

Please advise, if this office can be of further assistance.
