Inter-Office Memorandum

Date: March 3, 1997
To: Section Engineers
From: Roadway Design Engineer
John Pickering
Subject: Metric Box Culvert Standards

We now have a set of metric *Box Culvert Drawings* in Roadway Design Division. The one (1) set resides in Steve Reeves' office.

The standards are not a complete new design with hard metric dimensions - they are a soft conversion of the English standards. In other words, the dimensions and quantities are the same with both sets - only the units are different. Therefore, we do not plan on printing a set for each squad within Roadway Design anytime real soon. After the dust settles, or when we think Bridge Design Division has all the kinks out of them, we will print each squad a set.

If there are any questions, please advise.
