

MISSISSIPPI DEPARTMENT OF TRANSPORTATION

Inter-Departmental Memorandum

TO: Squad Leaders

DATE: July 22, 1997

FROM: Steven W. Reeves *SWR*
Quality Control Engineer
Roadway Design

SUBJECT OR PROJECT NO: Pipe---Jacked or Bored

INFORMATION COPY TO:

COUNTY:

Roadway Design Division Engineer
John Pickering
Ray Balentine
Roadway Design Section Engineers
Active Consultants
File

Jacking or boring is necessary when a pipe is required to be installed under existing railroads, highways, streets or other facilities. Lines of pipe shall be placed by conventional (open trench) methods whenever possible. Only those sections of a line of pipe that must be installed by jack or bore methods should be included in the pay item with the jack or bore designation. A line of pipe may contain sections that will be installed by conventional methods and sections that must be jacked or bored.

For further information, see Section 603.03.9 of the Mississippi Standard Specifications for Road and Bridge Construction.
