TO: Design Team Leaders

DATE: October 25, 2001

FROM: Steven W. Reeves
Quality Control Engineer

SUBJECT OR PROJECT NO: Precast Inlets

INFORMATION COPY TO:

COUNTY:

Roadway Design Division Engineer (Pickering)
Assistant Roadway Design Division Engineer (Purvis)
Special Projects Engineer (Boteler)
Roadway Design Section Engineers
Specification Engineer (Funchess)
District Engineers
Active Consultants
Files

Two Special Design sheets have been developed for precast inlets and junction boxes. These sheets are to be included in all projects containing SS-2 or SS-3 inlets, JB-1 junction boxes or drop inlets. The inclusion of these sheets will eliminate the process of approving precast units on a case-by-case basis as we have done in the past.

The Special Design sheets, PCU-1 and PCU-2, are available through the Quality Control section of Roadway Design Division. Designers may request these sheets through either Mr. Steven Reeves or Mr. Steve Spell.

If you have any questions, please advise.
