**DATE:** July 18, 2002

**FROM:** Steven W. Reeves  
Quality Control Engineer

**SUBJECT OR PROJECT NO:** Pay Item 907-304-D thru I  
Crushed Stone

**INFORMATION COPY TO:**

**COUNTY:**

Roadway Design Division Engineer  
Assistant Roadway Design Division Engineer  
Roadway Design Section Engineers  
Active Consultants  
Construction Division (Funchess, Chrisco)  
District Engineers  
Files

The pay item for crushed stone shall be calculated in the same manner as the quantities for granular material are calculated. If the item is measured in tons, the calculated amount shall be increased by 20%. If the item is measured in cubic yards (LVM), the calculated quantity shall be increased by 50%. If the item is measured in cubic yards (AEA), the calculated quantity shall be used with no increase. Footnotes shall be shown on the summary of quantities sheet when the quantity includes either the 20% or 50% increase. See page 12-8 in the Roadway Design Manual for details.

Please advise all squad members of this design memo.

If you have any questions, please advise.
