Subject: Bridge Widths in 2001 Roadway Design Manual Criteria Tables

There has been some discussion regarding revising the bridge widths shown in the criteria tables of the 2001 Roadway Design Manual. I have recently been in contact with the Bridge Engineer, Mitch Carr, and he states the bridge widths shown in our criteria tables are satisfactory; therefore, the bridge widths to use on the RWD-600 are the widths shown in the criteria tables.

John B. Pickering
