Files

The Standard Drawing for the Right-of-Way Marker, Sheet RW-1, has been revised. Starting with the June 2005 letting, this sheet will no longer be listed as a Standard Drawing on the detail index sheet. The new sheet will have to be added to plans as a Special Design Drawing. A half-scale copy of the new sheet is included with this memo. The new sheet will remain RW-1, RIGHT-OF-WAY MARKER. Electronic file or a full-scale copy of this sheet may be obtained by contacting Roadway Design Division.

If you have any questions, please advise.
