Materials Division (Sheffield)
Construction Division (Wilson)
Maintenance Division (Vance & McConnell)
District Engineers
FHWA (McWilliams)
Active Consultants
RWD Files (Reeves)

This Design Memo rescinds the Design Memo dated October 25, 2001. The previous memo stated to place the Special Design sheets, PCU-1 and PCU-2, into all project plans containing junction boxes and inlets.

These two sheets are not to be placed in any future plans. The use of pre-cast units will be explained in the Notice to Bidders from now on. These sheets are to be removed from all plans that have not been "small-blued". Plans that have been "small-blued" and contain the two pre-cast unit sheets will be dealt with by the Construction Division and the Project Engineer.

If you have any questions, please advise.
