

ACCESS SOP's / Rules and Median Crossovers

January 31, 2006

By John B. Pickering

➤ SOP ADM-23-01-00-000, Types of Highways, defines the types of highways constructed as follows:

- Type 1 is Freeways.
- Type 2 is partially controlled access highways.
- Type 3 is conventional highways.

This SOP can not be accessed by people outside of MDOT; however, it can be saved as a pdf file and emailed. MDOT staff can access it by going to MDOT@Work, then click on the following:

- Employee Resources
- Handbooks
- Programs, Regulations, SOP's
- S.O.P.s
- Administration
- ADM-23-01-00-000

➤ Rule *Driveway and Street Connections, Median Openings, Frontage Roads*, can be found at www.gomdot.com, then clicking the following:

- Near the bottom, click Recent Additions to goMDOT.com.
- MDOT APA Compliance
- 1. MDOT Rule-Making Record
- Down arrow where it says "All Documents"
- Maintenance
- Search
- Driveway and street connections, median openings, frontage roads

This can be saved as a pdf also.

➤ 2001 Roadway Design Manual discusses locations for median crossovers, and can be found at www.gomdot.com, then clicking the following:

- On the left, select Business Section
- Go down to Roadway Design Standard Drawings and Design Manual
 - ◇ Roadway Design Manual, 2001 Version
- Chapter 6
- Go to Page 6-38
 - ◇ See Section 6-8.01.02 Non-Freeways
