

**ADDENDUM #3 – Materials and Research- Sampling and Testing Master
Contract 2016**

Date: September 16, 2015

County: Statewide

Project Description: Provide services consisting of materials sampling, testing, and evaluation of test results – Statewide.

Dates Published in Clarion Ledger: August 19th and 26th, 2015

From: Scot Ehrgott, P.E. – MDOT Director of Consultant Services

Statement of modifications:

The purpose of this addendum is to make the following changes:

- 1. The first paragraph of the Request for Information (RFI) shall include the following changes:**

The Mississippi Department of Transportation (MDOT) proposes to execute a Master Contract(s) with Materials Testing and Research firms capable of providing services consisting of materials sampling, testing, and evaluation of test results, Statewide. Sampling provided by the firm may consist of coring hot-mix asphalt or Portland cement concrete pavement, coring chemically treated granular base and/or soil subgrade material, auger sampling of untreated base or subgrade material, and undisturbed (Shelby Tube) sampling of untreated subgrade material. Field and laboratory testing provided by the firm may consist of testing Portland cement concrete, hot-mix asphalt, cementitious stabilized materials, aggregates, ~~and~~ soil, ~~and~~ water.

This Addendum is effective this date and shall be used in the selection of any firms interested in submitting proposals for this Project.
