✓ Special Projects Engineer (Boteler)
Roadway Design Section Engineers
Construction Division (Funchess)
District Engineers
District LPA Coordinators
LPA Division (Smith)
FHWA
Consultants
RWD Files (Sutterfield)

Effective immediately, the application rate used to estimate Asphalt for Tack Coat (907-407-A001) has been cut in half, from 0.1 gal/SY to 0.05 gal/SY. Do not make first order plan revisions solely for this change. If other changes are being made, go ahead and make this change at the same time.

Consultants:

Please distribute this Design Memo to any other of your offices that may have a need for it. All RWD Design Memos may be found on MDOT's FTP site: <http://ftp.mdot.state.ms.us>
